

Cubik basins

Cubik trough-style basins with removable drain cover may be used alone or aligned with waterproof Tecnomlam (high-pressure laminate) side cabinets. Side cabinets may also be offset underneath the basin. With just two basin sizes (60 and 100 cm) and two side cabinet sizes (40 cm and 80 cm) many configurations can be achieved as shown in the images to the right. Additional tecnomlam wall storage cabinets are also available in two sizes.

cabinets have grooved handles with metal inserts available in matte white or black (see above)
